

Top 3 Ideas from Ideation Workshops

Workshop 1 Ideas:

Preference Gathering Tool:
A mobile app where each participant submits their trip preferences (budget, activities, etc.), and the app generates the best possible plan that satisfies everyone.

Budget Alignment Tracker:
An online platform that lets users input their individual budgets, then suggests trip activities and accommodations that fit within the group's financial constraints.

Group Communication Hub:
A chat-based app with reminders, shared checklists, and automatic notifications for important updates in the trip planning process.

Workshop 2 Ideas:

AI Trip Planner:
An AI-based tool that helps group members align on the best travel plans based on their preferences, including weather predictions, and activity suggestions.

Collaborative Budget Planner:
A tool where each user inputs their spending preferences, and the tool finds common ground for all budgets to fit everyone's needs.

Centralized Trip Planner Dashboard:
A dashboard that tracks each stage of planning (flights, hotels, activities) and sends reminders, integrates voting, and gathers feedback.
